Metals Raw Materials

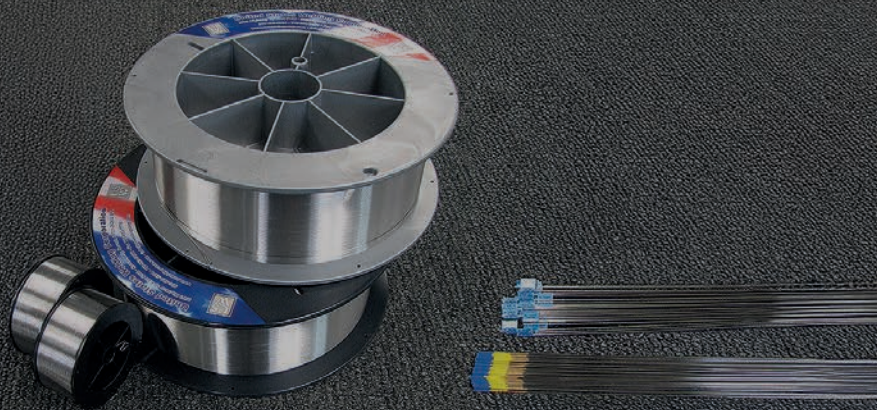

**We Ensure Flexibility, Compliance
& Cost Savings For Your Business.**

Incora[™] provides a wide selection of metal-based products that are OEM approved and supplied with their original mill certificates. This ensures you have full traceability and conformity to gas turbine and airline standards.

By offering full technical support and direct access to our manufacturers across our entire product range, we help you streamline procurement and maintain operational efficiency.

At Incora, we're committed to meeting all customer requirements, including consignment stock, managed supply, and delivery from stock, so you can focus on what matters most – keeping your operations running smoothly.

Our Products

Alloys

Aluminum, steels, titanium, nickel and copper alloys in bar, sheet, plate, Tube and forgings. Material released to AMS, MSRR and QQA Specification.

Locking Wire

All types of locking supplied to AMS, DTD18 & MS20995 & AS44724.

Thermal Coating Sprays

All types and forms of Amdry Products released to AMS, MSRR and GE Specifications.

High Temperature Brazing Materials

Including palladium based, gold based, silver based, argental and bronze alloys, copper based, Orobrazo alloys and precious metal brazing alloys.

Extrusion

We supply a wide range of extruded shapes all released to AMS, AMS-QQ & ASTM Specifications.

Welding Wire

Incora is the UK distributor of United States Welding Corporation. Material released to AMS & MSRR Specifications. We also supply welding inserts and consumables.

Brazing & Soldering Materials

Including precious metal paste and wire multicore solder, SMT solder paste, standard flux, soldering flux, brazing paste, brazing wire, brazing coil, braze powder, paste, tape and preforms. All released to required specifications.

Welding Products

All commercial welding products which include tig rods, tog torches, mig wire, electrodes, plasma cutting, oxy fuel and tig welding tools.

Composites & Carbon Fiber

We source, stock and supply honeycomb, pre-preg, fabrics and reinforcements, adhesives and resins.

Contact Incora today to discover how our expertise in metals raw materials can streamline your supply chain and keep your operations moving.
